Subject: Budget Detail for MDS 33

Loreen-

We are still waiting to receive the draft project agreement from the MDS Clinical Research group for the TES data management and reporting. I will be sending a note to their contracts VP (Phyllis Duster) tomorrow morning letting her know that in my absence she should forward the draft to you (in the event that it does not arrive by then).

I am attaching for your reference and circulation the budget details that I have received from their business director (Doug Fulling). The first document is the budget upon which Hans awarded MDS this project. The second document is supplemental detail to that budget that I anticipated Finance/Purchasing would want to see (non pass-through items). Please note that it has two tabs (cost breakdown and hourly breakdown).

Let me know if questions about either attachment.

Thanks,
Valerie
